Approved For Release 2001/08/13 : CIA-RDP78B04747A000500010046-3

I have questioned our ~~xxxx~~ personnel concerning the color of the easel top and they have stated a preference for a flat-white color similar to the Formica laminated-plastic white, number 949. In addition, ~~the~~ the vacuum area limits should be indicated by right-angle tick marks at each corner approximately two inches long on a side; preferred color of the tick marks is a medium blue.

I would appreciate your sending me a proposal giving cost for labor, design and material for our logistics approval. This should also include the cost for refinishing the easel as described above and the cost, if any, for substitution of the V3-G18X, 1/3 horsepower vacuum arrangement for our present ~~pumps~~ pump, as we ~~have~~ had discussed.

I certainly enjoyed my rather short visit with ~~xx~~ you and hope that ^{in the past,} since your instrument has performed well optically, that the mechanical and electronic modifications will enable us to use this instrument in the near future.
